

The Electric Edge Of Academe The Saga Of Lucien L Nunn And Deep Springs College

Getting the books The Electric Edge Of Academe The Saga Of Lucien L Nunn And Deep Springs College now is not type of inspiring means. You could not lonesome going past ebook growth or library or borrowing from your associates to way in them. This is an totally easy means to specifically get lead by on-line. This online broadcast The Electric Edge Of Academe The Saga Of Lucien L Nunn And Deep Springs College can be one of the options to accompany you later than having other time.

It will not waste your time. take me, the e-book will no question broadcast you new issue to read. Just invest little period to edit this on-line proclamation The Electric Edge Of Academe The Saga Of Lucien L Nunn And Deep Springs College as skillfully as evaluation them wherever you are now.

Higher Education: Handbook of Theory and Research Michael B. Paulsen 2015-01-12 Published annually since 1985, the Handbook series provides a compendium of thorough and integrative literature reviews on a diverse array of topics of interest to the higher education scholarly and policy communities. Each chapter provides a comprehensive review of research findings on a selected topic, critiques the research literature in terms of its conceptual and methodological rigor and sets forth an agenda for future research intended to advance knowledge on the chosen topic. The Handbook focuses on a comprehensive set of central areas of study in higher education that encompasses the salient dimensions of scholarly and policy inquiries undertaken in the international higher education community. Each annual volume contains chapters on such diverse topics as research on college students and faculty, organization and administration, curriculum and instruction, policy, diversity issues, economics and finance, history and philosophy, community colleges, advances in research methodology and more. The series is fortunate to have attracted annual contributions from distinguished scholars throughout the world.

Desert Journal Ruth Weiss 2012-04-03 Poetry. Drawings by Paul Blake. Originally published in 1977 by Good Gay Poets of Boston. "A book whose page has come. ruth weiss has been sounding these poems, alone or with jazz accompaniment, for many years. It's now ocheny chorosho that they appear for the senses of those potential poets searching for new modulations of expression; for her poems are of the rhythms of our time and the interlaced, repetitive subtleties are sewn by that 'thread for those who breathe in rags' (Vallejo) which bespeaks and sings the deep loom of the bronze lotus."—Jack Hirschman

Pretenders Lynda Williams 2008 Invited back from exile to claim the throne of Sevildom, Ev'rel fears no greater threat than the need to embellish the role of a frail princess with the Demish while she tries to decide how she feels about her ex-mentor, Di Mon. Does she love him or hate him? Di Mon is confident he wants Ev'rel to rule, but he's disillusioned in her as a leader and terrified she will discover the secret bond between him and the young Reetion, Ranar. Ev'rel's beautiful but battered son Amel just wants to enjoy his new friendship with Ayrium, but he must play out Ev'rel's father's determination to put him on the throne. Ayrium meets a peculiar, reclusive scholar from Monitum and worries romance will distract her from her true agenda. Will her inconvenient love interest change everything for everyone?

The Night Climbers Ivo Stourton 2008-06-03 Seduced into an underground circle of thrill-seeking fellow students at Cambridge's Tudor College, James Walker enters obsessive relationships with a beautiful coed and the group's ringleader before becoming involved in an audacious art fraud scheme. A first novel. 35,000 first printing.

Those Who Leave and Those Who Stay Elena Ferrante 2014-09-02 Part of the bestselling saga about childhood friends following different paths by "one of the great novelists of our time" (The New York Times). In the third book in the New York Times–bestselling Neapolitan quartet that inspired the HBO series My Brilliant Friend, Elena and Lila have grown into womanhood. Lila married at sixteen and has a young son; she has left her husband and the comforts her marriage brought and now works as a common laborer. Elena has left the neighborhood, earned her college degree, and published a successful novel, all of which has opened the doors to a

world of learned interlocutors and richly furnished salons. Both women are pushing against the walls of a prison that would have seen them living a life of misery, ignorance, and submission. They are afloat on the great sea of opportunities that opened up for women during the 1970s. And yet, they are still very much bound to each other in a book that “shows off Ferrante’s strong storytelling ability and will leave readers eager for the final volume of the series” (Library Journal). “One of modern fiction’s richest portraits of a friendship.” —NPR

Intercultural Modes of Philosophy, Volume One Eli Kramer 2021-08-30 Until rather recently, philosophy, when practiced as a way of life, was, for most, a communal enterprise of mutually reinforced personal cultivation. It is time, yet again, to revitalize this lost, but vital, intercultural mode of philosophy.

Explaining Electricity Jim (James William) Ross 2004 Electricity can be easy to understand! A fruitful model of simple electric circuits is developed and applied in these pages. The approach is highly pictorial: electric potential (Volts) and electric current (Amps) are represented by simple diagrams. The student is expected to use these diagrams as the principal mode of analyzing circuits. When algebra and equations are introduced, the student already has an understanding of V, I, R and P from the diagrams. As in all of the Ross Lattner IntuitivScience series, diagrams are an important mode of expression. Parents and teachers, you get one half of the book! We provide solid pedagogical supports, recipes, and methods of presentation. The unit itself is further subdivided into four sections, approximating four weeks of 70-minute classes. 1. Static electricity and the electrical structure of matter 2. Characteristics of electric current, and development of a model of current, potential, resistance and power 3. Mathematical treatment of series and parallel circuits 4. Projects that are either an application of the model or an extensions of the model. At the end of sections 1 - 3 is a thorough quiz, in the same pictorial style. Because this unit involves fundamental forces and concepts, we recommend that it be placed first in the series of the four Ross Lattner Grade Nine Academic IntuitivScience books. In particular, this book should be placed before chemistry.

Saga/circus Lyn Hejinian 2008 Two distinct, extended poems present an ensemble of memorable characters in moving, humorous, and mesmerizing motifs. The themes of duality, gender, dichotomy, and genre are explored, blending them with exciting and lyrical language. Beautifully illustrating a diverse array of topics, this examination makes an excellent addition to any collection of poetry.

Monthly Catalog of United States Government Publications 1995

Azalea Springs Jeff Tolley 2012-07-01 "The small town of Azalea Springs that has lived in seemingly charmed ignorance for generations finds itself floundering in a modern era of hate and revenge. Gary Tatum battles intolerance, racism, and ethnic superiority while Azalea Springs' least favorite son, Rusty Wicker, battles to keep the power that he has won through murder, intimidation, and the local drug trade. Russell Vaughn is the big-time, small town lawyer who secretly struggles with his desire for revenge. Michael and Grace Fleming are the newcomers who are thrust into a conspiracy that pits Old South ideals against the progress of the New South"--Page 4 of cover.

The House of Government Yuri Slezkine 2017-08-07 On the 100th anniversary of the Russian Revolution, the epic story of an enormous apartment building where Communist true believers lived before their destruction The House of Government is unlike any other book about the Russian Revolution and the Soviet experiment. Written in the tradition of Tolstoy's War and Peace, Grossman's Life and Fate, and Solzhenitsyn's The Gulag Archipelago, Yuri Slezkine's gripping narrative tells the true story of the residents of an enormous Moscow apartment building where top Communist officials and their families lived before they were destroyed in Stalin's purges. A vivid account of the personal and public lives of Bolshevik true believers, the book begins with their conversion to Communism and ends with their children's loss of faith and the fall of the Soviet Union. Completed in 1931, the House of Government, later known as the House on the Embankment, was located across the Moscow River from the Kremlin. The largest residential building in Europe, it combined 505 furnished apartments with public spaces that included everything from a movie theater and a library to a tennis court and a shooting range. Slezkine tells the chilling story of how the building's residents lived in their apartments and ruled the Soviet state until some eight hundred of them were evicted from the House and led, one by one, to prison or their deaths. Drawing on letters, diaries, and interviews, and featuring hundreds of rare photographs, The House of Government weaves together biography, literary criticism, architectural history, and fascinating new theories of revolutions, millennial prophecies, and reigns of terror. The result is an unforgettable human saga of a building that, like the

Soviet Union itself, became a haunted house, forever disturbed by the ghosts of the disappeared.

The Unrequited Saffron A. Kent 2020-12-27 Layla Robinson is not crazy. She is suffering from unrequited love. But it's time to move on. No more stalking, no more obsessive calling. What she needs is a distraction. The blue-eyed guy she keeps seeing around campus could be a great one--only he is the new poetry professor--the married poetry professor. Thomas Abrams is a stereotypical artist--rude, arrogant, and broody--but his glares and taunts don't scare Layla. She might be bad at poetry, but she is good at reading between the lines. Beneath his prickly façade, Thomas is lonely, and Layla wants to know why. Obsessively. Sometimes you do get what you want. Sometimes you end up in the storage room of a bar with your professor and you kiss him. Sometimes he kisses you back like the world is ending and he will never get to kiss you again. He kisses you until you forget the years of unrequited love; you forget all the rules, and you dare to reach for something that is not yours. New Adult Romance, Contemporary Romance, Student-teacher Romance, Forbidden Romance, Age-gap Romance, Angsty Romance, College Romance. Brian's Winter Gary Paulsen 1998 Sequel to: "Hatchet" and "The River."

San Francisco and the Long 60s Sarah Hill 2016-01-14 San Francisco and the Long 60s tells the fascinating story of the legacy of popular music in San Francisco between the years 1965-69. It is also a chronicle of the impact this brief cultural flowering has continued to have in the city – and more widely in American culture – right up to the present day. The aim of San Francisco and the Long 60s is to question the standard historical narrative of the time, situating the local popular music of the 1960s in the city's contemporary artistic and literary cultures: at once visionary and hallucinatory, experimental and traditional, singular and universal. These qualities defined the aesthetic experience of the local culture in the 1960s, and continue to inform the cultural and social life of the Bay Area even fifty years later. The brief period 1965-69 marks the emergence of the psychedelic counterculture in the Haight-Ashbury neighbourhood, the development of a local musical 'sound' into a mainstream international 'style', the mythologizing of the Haight-Ashbury as the destination for 'seekers' in the Summer of Love, and the ultimate dispersal of the original hippie community to outlying counties in the greater Bay Area and beyond. San Francisco and the Long 60s charts this period with the references to received historical accounts of the time, the musical, visual and literary communications from the counterculture, and retrospective glances from members of the 1960s Haight community via extensive first-hand interviews. For more information, read Sarah Hill's blog posts here: <http://blogs.cardiff.ac.uk/musicresearch/2014/05/15/san-francisco-and-the-long-60s> <http://blogs.cardiff.ac.uk/musicresearch/2014/08/22/city-scale/> <http://blogs.cardiff.ac.uk/musicresearch/2015/07/21/fare-thee-well/> Conscience and Community Robert Alan Goldberg 2018 "Lowell Bennion, Sterling McMurrin, and Obert Tanner were friends and colleagues whose lives often intertwined. Professors at the University of Utah, these three scholars collaborated in addressing issues and events of their time; each influenced the thought and culture of Mormonism, helping to institute a new period of intellectual life and social activism. In Conscience and Community multiple scholars, family members, and others look at the private and public aspects of three lives and examine the roles they played in shaping their communities inside and out of their university and church. Lowell Bennion was founding director of the LDS Institute of Religion and professor of sociology at the University of Utah. He established multiple community service entities. Sterling McMurrin was a distinguished professor of philosophy and history, a graduate school dean, and former commissioner of education under JFK. He dismissed dogma and doctrine as barriers to a search for moral and spiritual understanding. Obert Tanner, also of the university's Philosophy Department, excelled in teaching and in business and became especially well known for philanthropy. The lives and work of these three men reveal the tensions between faith and reason, conscience and obedience. Their stories speak to us today because their concerns remain our concerns: racial justice, women's equality, gay rights, and the meaning of integrity and conscience"--Provided by publisher.

Scientific and Technical Aerospace Reports 1984

The Rough Guide to Los Angeles & Southern California Jeff Dickey 2013-10-24 This definitive guidebook to Los Angeles and Southern California features hundreds of reviews of the city's restaurants, hotels, nightlife, shops, and cinemas. Along with a thorough look at LA's top tourist areas, from Hollywood and Beverly Hills to Santa Monica and Disneyland, the guide explores more obscure but no less deserving sights, from Downtown's arts district to Santa Catalina Island. Additionally, the book covers the broader Southern California region, including San Diego, Palm Springs and Santa Barbara. A full range of practical information for the visitor includes city transport and tours to costs and currency, while an in-depth contexts section details the region's colourful background, from its landmark architecture to the rise of the Hollywood film industry. Finally, individual sections highlight the region's top sights, as well as its beautiful beaches, and there are plenty of maps to help you plan your trip to this free-spirited American metropolis. Originally published in print in 2011. Now available in ePub format.

Alternative Universities David J. Staley 2019-03-26 Pairing a critique tempered to our current moment with an explanation of how change and disruption might

contribute to a new "golden age for higher education, *Alternative Universities* is an audacious and essential read.

Cost Accounting Steven M. Bragg 2016-02-17 *Cost Accounting* provides in-depth coverage of all cost accounting concepts, incorporating practical advice regarding their real-world usage. The text goes well beyond the traditional cost accounting topics of inventory valuation and cost analysis to also cover inventory management, price setting, target costing, constraint analysis, and budgeting. The material is designed to give the student exposure to how these topics are dealt with in a business environment.

The Twilight Saga Complete Collection Stephenie Meyer 2010-11-08 This stunning set, complete with five editions of *Twilight*, *New Moon*, *Eclipse*, *Breaking Dawn*, and *The Short Second Life of Bree Tanner: An Eclipse Novella*, makes the perfect gift for fans of the bestselling vampire love story. Deeply romantic and extraordinarily suspenseful, *The Twilight Saga* capture the struggle between defying our instincts and satisfying our desires

Altered America Martin T. Ingham 2014-03-23 21 exciting tales of Alternate History! What if fate had turned out differently in these United States? What if the Louisiana Purchase never happened? What if George Washington had been a Loyalist? What if a billionaire cloned the Founding Fathers? What if the Vikings had settled North America? What if the Apollo 11 moon landing had failed? These and many other scenarios are explored in *Altered America*! Featuring stories by Jackson Kuhl, Dan Gainor, Bruno Lombardi, Edmund Wells, Sam Kepfield, Brad Hafford, Erik Bundy, Dusty Wallace, Owen Morgan, Ryan McCall, Jason Sharp, Sean Menken, William R.D. Wood, Jeff Provine, James S. Dorr, Martin T. Ingham, Lauren A. Forry, Cyrus P. Underwood, Charles Wilcox, and Philip Overby.

The Academic Entrepreneur John Paul Tabakian 2013-04-17 Public funding for community colleges has been steadily declining since the peak of funding in the 1970s. Surviving the constant threats of budgetary cuts has been a key motivating factor for community colleges to embrace academic entrepreneurialism. I examined the academic entrepreneurial pursuits of one California Community College (CCC) to understand those factors that encourage community college faculty to pursue academic entrepreneurial solutions. The purpose of this qualitative study is to examine factors that encourage academic entrepreneurialism among community college faculty. Specifically, I investigated three categories of factors that influence academic entrepreneurialism: individual, institutional, and environmental. Individual factors include demographic and background characteristics, including age, race, gender, academic training, and previous professional careers. Institutional factors include program offerings available for students, institutional reputation and history, institutional policies and practices, and academic and administrative leadership. Environmental factors relate to the peer influences of a campus that encourages academic entrepreneurial behavior of faculty. The significance of this study lies in the identification of factors that encourage academic entrepreneurialism among community college faculty, ultimately supporting institutional efforts to augment funding. I investigated individual, institutional, and environmental factors that encourage academic entrepreneurialism among community college faculty. Accordingly, the research questions identify key factors that encourage academic entrepreneurialism among community college faculty and explain how they facilitate faculty to engage in academic entrepreneurialism. The research questions that I evaluated in this study are: What individual, institutional, and environmental factors influence community college faculty to engage in academic entrepreneurialism? What is the relationship between faculty background, institutional, and environmental characteristics and the frequency and quality of academic entrepreneurialism among community college faculty? I found that all three factors are essential elements of academic entrepreneurialism among community college faculty. Individual, institutional, and environmental factors consist of people who are all pursuing their self-interest. This follows the tenets of rational choice theory as the study finds that self-interest influences faculty academic entrepreneurialism. The study argues that changes to institutional policies are the key determining factor to encourage academic entrepreneurialism among community college faculty. Institutional policies determine how a college functions and understands the interrelationship between individual, institutional, and environmental factors. Encouraging academic entrepreneurialism among community college faculty requires institutional policies that focus on the fundamental issue: recruiting, retaining, and evaluating community college faculty. The study offers suggestions for how to influence institutional policies that in turn encourage faculty academic entrepreneurialism by addressing the following areas: faculty job descriptions, faculty job announcements, evaluating faculty levels of academic entrepreneurialism, and offering entrepreneurial faculty financial incentives.

The Fourth Industrial Revolution Klaus Schwab 2017 Between the 18th and 19th centuries, Britain experienced massive leaps in technological, scientific, and economical advancement

Data Science and Simulation in Transportation Research Janssens, Davy 2013-12-31 Given its effective techniques and theories from various sources and fields,

data science is playing a vital role in transportation research and the consequences of the inevitable switch to electronic vehicles. This fundamental insight provides a step towards the solution of this important challenge. *Data Science and Simulation in Transportation Research* highlights entirely new and detailed spatial-temporal micro-simulation methodologies for human mobility and the emerging dynamics of our society. Bringing together novel ideas grounded in big data from various data mining and transportation science sources, this book is an essential tool for professionals, students, and researchers in the fields of transportation research and data mining.

The Electric Edge of Academe L. Jackson Newell 2015 The life story of a daring innovator, entrepreneur, and educational reformer

Energy at the End of the World Laura Watts 2019-01-15 Making local energy futures, from marine energy to hydrogen fuel, at the edge of the world. The islands of Orkney, off the northern coast of Scotland, are closer to the Arctic Circle than to London. Surrounded by fierce seas and shrouded by clouds and mist, the islands seem to mark the edge of the known world. And yet they are a center for energy technology innovation, from marine energy to hydrogen fuel networks, attracting the interest of venture capitalists and local communities. In this book, Laura Watts tells a story of making energy futures at the edge of the world. Orkney, Watts tells us, has been making technology for six thousand years, from arrowheads and stone circles to wave and tide energy prototypes. Artifacts and traces of all the ages—Stone, Bronze, Iron, Viking, Silicon—are visible everywhere. The islanders turned to energy innovation when forced to contend with an energy infrastructure they had outgrown. Today, Orkney is home to the European Marine Energy Centre, established in 2003. There are about forty open-sea marine energy test facilities in the world, many of which draw on Orkney expertise. The islands generate more renewable energy than they use, are growing hydrogen fuel and electric car networks, and have hundreds of locally owned micro wind turbines and a decade-old smart grid. Mixing storytelling and ethnography, empiricism and lyricism, Watts tells an Orkney energy saga—an account of how the islands are creating their own low-carbon future in the face of the seemingly impossible. The Orkney Islands, Watts shows, are playing a long game, making energy futures for another six thousand years.

A History of American Higher Education John R. Thelin 2019-04-02 Anyone studying the history of this institution in America must read Thelin's classic text, which has distinguished itself as the most wide-ranging and engaging account of the origins and evolution of America's institutions of higher learning.

Advanced Statistics in Research Larry Hatcher 2013 "Advanced Statistics in Research: Reading, Understanding, and Writing Up Data Analysis Results" is the simple, nontechnical introduction to the most complex multivariate statistics presented in empirical research articles. "wwwStatsInResearch.com," is a companion website that provides free sample chapters, exercises, and PowerPoint slides for students and teachers. A free 600-item test bank is available to instructors. "Advanced Statistics in Research" does not show how to "perform" statistical procedures--it shows how to read, understand, and interpret them, as they are typically presented in journal articles and research reports. It demystifies the sophisticated statistics that stop most readers cold: multiple regression, logistic regression, discriminant analysis, ANOVA, ANCOVA, MANOVA, factor analysis, path analysis, structural equation modeling, meta-analysis--and more. "Advanced Statistics in Research" assumes that you have never had a course in statistics. It begins at the beginning, with research design, central tendency, variability, z scores, and the normal curve. You will learn (or re-learn) the big-three results that are common to most procedures: statistical significance, confidence intervals, and effect size. Step-by-step, each chapter gently builds on earlier concepts. Matrix algebra is avoided, and complex topics are explained using simple, easy-to-understand examples. "Need help writing up your results?" *Advanced Statistics in Research* shows how data-analysis results can be summarized in text, tables, and figures according to APA format. You will see how to present the basics (e.g., means and standard deviations) as well as the advanced (e.g., factor patterns, post-hoc tests, path models, and more). "Advanced Statistics in Research" is appropriate as a textbook for graduate students and upper-level undergraduates (see supplementary materials at StatsInResearch.com). It also serves as a handy shelf reference for investigators and all consumers of research.

Mormon Enigma Linda King Newell 1994 *Mormon Enigma* is the bestselling biography of Emma Hale Smith, wife of the Mormon prophet Joseph Smith. It was Joseph Smith who announced that an angel of the Lord had commanded him to introduce a 'new order of marriage.' And it was Emma Hale Smith who confronted the practice of polygamy head on. As the authors note in their introduction, "Early

Sustainable Or Bust Richard Adrian Reese 2013-07 Clearly, the "normal" way of life is the opposite of genuine sustainability, and it has an expiration date. Any way of life that is fully in balance with the family of life must be genuinely sustainable, a healthy path with a future. At present, too few really comprehend this concept. It would be wise to learn, and *Sustainable or Bust* is a useful tool for the job. Seven-point-something billion people can't switch to sustainable living this afternoon, because it's temporarily impossible. But the collapse of industrial civilization is now in its early stages, and when it's done, the human sphere will be much smaller,

slower, and simpler. Decades down the road, many new options will become possible, including genuine sustainability. We could help our descendants find a more direct path to health and balance by learning about sustainability now, and sharing this wisdom with the young ones. There's never been a better time to hit the books and feed our minds — before the lights go out. Nothing can change until ideas change. My first book, *What Is Sustainable*, presented an introduction to genuine sustainability, with an emphasis on food. *Sustainable or Bust* is a collection of 64 book reviews, and 16 rants. It's a gallery of thinkers, scholars, and ideas that might make “normal” minds itch and squirm. This book is for pilgrims who are awake, alive, and weary of normal — minds hungry for outside-the-box ideas. I don't expect to see the end of the collapse. What the survivors, if any, choose to do is entirely beyond my control. I am not responsible for the decisions they make, but I am responsible for doing what I can to help them understand their history, predicament, and options. Who are we? Where are we from? How did we get here?

Hell's Angels Hunter S. Thompson 2012-08-01 Gonzo journalist and literary roustabout Hunter S. Thompson flies with the angels—Hell's Angels, that is—in this short work of nonfiction. “California, Labor Day weekend . . . early, with ocean fog still in the streets, outlaw motorcyclists wearing chains, shades and greasy Levis roll out from damp garages, all-night diners and cast-off one-night pads in Frisco, Hollywood, Berdoo and East Oakland, heading for the Monterey peninsula, north of Big Sur. . . The Menace is loose again.” Thus begins Hunter S. Thompson's vivid account of his experiences with California's most notorious motorcycle gang, the Hell's Angels. In the mid-1960s, Thompson spent almost two years living with the controversial Angels, cycling up and down the coast, reveling in the anarchic spirit of their clan, and, as befits their name, raising hell. His book successfully captures a singular moment in American history, when the biker lifestyle was first defined, and when such countercultural movements were electrifying and horrifying America. Thompson, the creator of Gonzo journalism, writes with his usual bravado, energy, and brutal honesty, and with a nuanced and incisive eye; as *The New Yorker* pointed out, “For all its uninhibited and sardonic humor, Thompson's book is a thoughtful piece of work.” As illuminating now as when originally published in 1967, *Hell's Angels* is a gripping portrait, and the best account we have of the truth behind an American legend.

Contemporary Philosophical Proposals for the University Aaron Stoller 2018-02-12 This edited collection brings together a robust range of philosophers who offer theoretically and critically informed proposals regarding the aims, policies, and structures of the university. The collection fills a major gap in the landscape of higher education theory and practice while concurrently reviving a long and often forgotten discourse within the discipline of philosophy. It includes philosophers from across the globe representing disparate philosophical schools, as well as various career stages, statuses, and standpoints within the university. There is also a diversity in method, approach and style, which varies from personal narratives and case studies, to philosophical genealogies, to traditional philosophical essays, and to systematic theories. The collection can serve as a theoretical resource for critically minded administrators and faculty who wish to analyze and change policies and structures at their home institutions. It will introduce them to a wide range of possible educational imaginaries, as well as provide them with productive suggestions for pragmatic change on campuses.

To the Edge of the Sky Anhua Gao 2000 This family saga is set within the framework of the tumultuous events of 20th-century China. Anhua (little flower) is the daughter of two revolutionary martyrs who leave her and her three siblings orphaned. This is the story of her extraordinary life in this vast and contradictory country. She, like many thousands, suffers under the swinging opinions of the powers that be - finding herself one moment favoured by the authorities and her peers and then denounced and imprisoned.
